APPENDIX: BLUEPRINT UPDATE REFERENCE FOR TRANSITION OF A STATE BASED EXCHANGE TO A STATE BASED EXCHANGE ON THE FEDERAL PLATFORM	

SECTION I: OVERVIEW OF BLUEPRINT APPLICATION AND APPROVAL REQUIREMENTS

Introduction

The Patient Protection and Affordable Care Act (PPACA) establishes Health Benefit Exchanges to provide individuals and small business employees access to health insurance coverage beginning January 1, 2014. An Exchange is an entity that both facilitates the purchase of qualified health plans (QHP) by qualified individuals and provides for the establishment of a Small Business Health Options Program (SHOP), consistent with PPACA Section 1311(b) and 45 CFR 155.100.

The PPACA and its implementing regulations provide states with flexibility in the design and operation of their Exchanges to ensure states are implementing sustainable Exchanges that best meet the needs of its population. States can choose to establish and operate a State-based Exchange (SBE) or a State-based Exchange on the Federal Platform (SBE-FP). States electing to operate as an SBE-FP rely on the Federal Healthcare.gov platform to carry out eligibility and enrollment functions, along with associated eligibility and enrollment support functions, such as call center operations for consumer eligibility support and casework support. For states that do not elect to operate either an SBE or SBE-FP, the Secretary of the U.S. Department of Health and Human Services (HHS) will establish and operate a Federally-facilitated Exchange (FFE) in those states. FFE states may also elect the option to perform certain Plan Management functions for their individual and SHOP market.

Pursuant to 45 CFR 155.105, FFE states that seek to operate an SBE or SBE-FP must complete and submit an Exchange Blueprint Application. The Blueprint Application documents that an Exchange will meet the legal and operational requirements associated with the Exchange model a state chooses to pursue. As part of its Blueprint submission, a state will also agree to demonstrating operational readiness to implement and execute the required Exchange activities described in the Blueprint.

This document includes the Blueprint application for states seeking approval to operate either an SBE or SBE-FP for coverage years beginning on, or after, January 1, 2019, and includes the following application components:

- Declaration of Intent Letter (Section II)
- Blueprint Application (Section III)
 - Part A: Application Attestation
 - Part B: Exchange Declarations
 - Parts C or D: SBE or SBE-FP Application

SBEs or SBE-FPs that already have a conditionally-approved Blueprint and wish to transition to an SBE-FP or SBE, respectively, must submit an updated Declaration of Intent letter, and submit an update to their Blueprint Application within the timelines described in 45 CFR 155.106. An SBE transitioning to an SBE-FP should refer to the SBE-FP Blueprint Application and the Appendix in this document, along with the guidance in CMS' SBE to SBE-FP Transition Tool, when updating their Blueprint Application. An SBE-FP transitioning to an SBE should refer to the SBE Blueprint Application in this document when updating their Blueprint Application.

See Figure 1 below for an illustrative representation of the Exchange models, the flexibility within each, as well as the associated HHS approval requirements.

Blueprint Application Review and Approval Process

Upon a state's submission of its Declaration of Intent Letter, the Centers for Medicare & Medicaid Services' (CMS) will engage the state and provide technical assistance on the completion of the state's Blueprint Application, if not already submitted, and the process toward approval or conditional approval. HHS recognizes that states also depend on HHS, other Federal agencies, and contractors for guidance associated with their Exchange establishment. In consideration of this dependency, HHS' approval of SBEs and SBE-FPs will take into account that states will be in various stages of development when the Blueprint Applications are submitted to HHS. As a result, HHS will grant conditional approval for an SBE or SBE-FP that does not meet all applicable Exchange requirements at the time of Blueprint submission, but that has: 1) attested to meeting all applicable requirements in the Blueprint; 2) is making significant progress toward meeting the requirements with projected dates of completion, and; 3) is anticipated to be operationally ready for the applicable open enrollment period.

Once a state has been conditionally approved, CMS will work closely with each Exchange to monitor state progress and ensure that proposed dates of completion for Blueprint activities and other project milestones are met in accordance with the state's projected completion dates.

Monitoring of State Progress and Readiness Reviews

CMS will utilize regular calls with the state in addition to implementation and/or operational readiness reviews to monitor and provide guidance to states on their Exchange information technology (IT) system build and implementation of programmatic requirements as defined in the Exchange Blueprint. Operational readiness entails HHS' and its Federal agency partners' assessment of the capacity of an Exchange to conduct Exchange business. The objective of these assessments is to assure that an Exchange's policies, procedures, operations, technology, and other administrative capacities have been implemented and scaled to meet the needs of the State's Exchange's population. HHS will use the information in a State's Exchange Blueprint Application to determine the need for, and timing of, in-person or virtual periodic readiness assessments.

Additionally, as part of the implementation or operational reviews, CMS may require that the state provide testing results or supplemental documentation demonstrating progress towards meeting the Exchange Blueprint requirements leading up to the start of its first open enrollment as an Exchange. Requests for documentation and information system testing results may occur as part of the readiness reviews or other consults as requested by CMS. Additionally, CMS may require formal testing between the state's IT system and the CMS Federal Data Services Hub (FDSH) to ensure connectivity, correct data exchange formats and values, correct interpretation of responses from the FDSH by the state, and ensure correct information is transmitted and captured. CMS will provide guidance and documentation to assist states with testing the automated functionality of their Exchanges and reporting results to CMS.

An Exchange's conditional approval status will continue as long as a state continues to meet expected progress milestones and until a state successfully demonstrates its ability to perform all required Exchange activities and comply with all applicable Federal guidance and regulations. Provided that the state is continuing to demonstrate progress in meeting the requirements outlined in its conditional approval determination, a state Exchange will maintain conditional approval status. HHS will approve an SBE or SBE-FP once the state has demonstrated the ability to satisfactorily perform all required Exchange activities, and comply with all Federal program rules and requirements applicable to the Exchange model they are conditionally-approved to operate.

Questions Regarding the Exchange Blueprint and Technical Assistance

SBE and SBE-FP states with an assigned CMS CCIO State Officer should contact him or her for specific questions regarding Exchange Blueprint application submissions. All other states are encouraged to contact CCIO's State Marketplace and Insurance Programs Group (SMIPG) at SBMOversight@cms.hhs.gov for information about technical assistance consultations, and resources available to states on the Exchange Blueprint process.

PRA Disclosure Statement

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid Office of Management and Budget (OMB) control number. The valid OMB control number for this information collection is 0938-1172. The time required to complete this information collection is estimated to average (31.5 hours) per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4- 26-05, Baltimore, Maryland 21244-1850.

SECTION II: DECLARATION OF INTENT LETTER

A state seeking to operate an SBE or SBE-FP for coverage years beginning on, or after, January 1, 2019 will declare the type of Exchange model it intends to pursue through an Exchange Declaration of Intent Letter to be submitted to HHS in advance of, or by the time of, the submission of an Exchange Blueprint Application. As previously noted, states that already have a conditionally-approved Blueprint who wish to transition to an SBE or SBE-FP should submit an update to their Exchange Declaration Letter in advance of, or by the time of, the submission of their updated Exchange Blueprint Application.

A state's Declaration of Intent Letter must be signed by the state's governor. As described below, the Declaration of Intent Letter's contents should include basic information associated with its designated Exchange model. The Declaration of Intent Letter should include a designation of the individual(s) (i.e., Designee(s) who will serve as the primary point of contact for HHS regarding the Exchange). The individual(s) should be authorized to bind the state regarding the state's Exchange, as well as to complete and sign the Exchange Blueprint Application. In the case of an SBE or SBE-FP, this should be the individual(s) authorized to attest to the state's intent to meet the requirements in the Exchange Blueprint Application.

States are encouraged to submit their Exchange Declaration of Intent Letter as early as possible. CMS has generally recommended that states submit this letter no later than 21 months prior to the beginning of an SBE's first open enrollment and no later than 9 months prior to the beginning of an SBE-FP's first open enrollment. However, these timeframes are meant to be general guidelines based on CMS' experience with the length of time needed for states to transition Exchange operational models and information technology platforms. States are recommended to consult with CMS CCIIO for further guidance as needed. A state's Declaration of Intent Letters should be sent to:

CMS CCIIO
200 Independence Avenue SW, Suite 739H
Washington DC, 20201.

In addition, please email a copy to the SBMOversight@cms.hhs.gov. To support HHS' goal of public transparency, states must post their Declaration of Intent Letter to the state (or other appropriate) website.

Contents of Declaration of Intent Letter

A state's Declaration of Intent Letter must include the following contents:

- The Exchange model that the state chooses to pursue (SBE or SBE-FP).
- Confirmation of the plan year for which the state intends to begin operating an SBE or SBE-FP (i.e., plan year 2019 or a subsequent plan year).
- Designation of the individual(s) (i.e., Designee(s)) authorized to act as primary point(s) of contact and authorized to bind the state with HHS regarding the state's Exchange, as well as to complete and sign the Blueprint Application.
- Acknowledgement that HHS and the state may agree to amend their Declaration of Intent Letter to include additional information necessary to establish their Exchange.

SECTION III: APPLICATION FOR APPROVAL OF STATE BASED HEALTH INSURANCE EXCHANGES

Application Instructions

HHS requires that states seeking approval to operate an SBE or SBE-FP for coverage years beginning on, or after, January 1, 2019 must complete and submit an Exchange Blueprint Application. States that already have a conditionally-approved Blueprint who are seeking to transition to a different Exchange model (either an SBE or SBE-FP) must submit an update to their Exchange Blueprint Application for approval.

The Blueprint Application documents that a state's Exchange has met, or will meet, all legal and operational requirements associated with the Exchange model that the state intends to operate. Specifically, a state must attest to the current ability of its Exchange to meet specified requirements or to its intention for completion of the specified requirements by a future date. As part of its Exchange Blueprint submission, a state will also agree to demonstrating operational readiness to execute Exchange activities. States may attest to activities being completed by the Exchange or a designee through contract, agreement, or other arrangement. However, the Exchange is ultimately responsible for meeting all applicable Federal requirements outlined in the Blueprint and for the successful performance of each activity. HHS considers the Blueprint as an agreement that exists solely between the state and CMS. HHS encourages states to reach to CMS' CCIO's State Marketplace and Insurance Programs Group (SMIPG) at SBMOversight@cms.hhs.gov for clarification on any activities that direct states to consult HHS guidance and or regulations that provide more detailed information about the applicability of certain Exchange functional requirements to specific Exchange models.

Per regulations at 45 CFR 155.106, states seeking to operate an SBE must submit their Exchange Blueprint application (or updated Blueprint) to HHS at least 15 months prior to the beginning of an SBE's first open enrollment. States seeking to operate an SBE-FP must submit their Exchange Blueprint application (or updated Blueprint) to HHS at least 3 months prior to the beginning of an SBE-FP's first open enrollment.

The Exchange Blueprint Application will be electronically available for States to complete and submit through CMS' CCIO's SERVIS system (<https://portal.cms.gov>). To gain access to SERVIS and be able to complete and submit the Exchange Blueprint Application a state without an assigned CMS CCIO State Officer would need to send an email request to SBMOversight@cms.hhs.gov with subject line: Exchange Blueprint Application Notification. States with an assigned CMS CCIO State Officer (SO) will work closely with their SO to complete and submit an update to their Exchange Blueprint Application.

The Blueprint Application includes the following components. States seeking approval to operate an SBE or SBE-FP for coverage years beginning on, or after, January 1, 2019 must complete and submit Part A and Part B. States complete Part C or Part D, depending on its Exchange model.

Part A. Application Attestation: The individual(s) designated in a state's Declaration of Intent Letter (the Designee(s)) must attest, on behalf of the state, to the accuracy of the information submitted for the entire Blueprint submission.

Part B. Exchange Declarations: The applicant must provide an overview of key Exchange options within the model the state has chosen to operate.

Part C. State-based Exchange Blueprint Application: States seeking to be State-based Exchanges must attest to either completion or expected completion of required activities.

Part D. State-based Exchange on the Federal Platform Blueprint Application: States seeking to be State-based Exchanges on the Federal Platform must attest to either completion or expected completion of required activities.

PART A. APPLICATION ATTESTATION

ON THIS DATE, I ATTEST THAT THE STATEMENTS AND INFORMATION CONTAINED IN THIS EXCHANGE BLUEPRINT AND DOCUMENTS SUBMITTED IN CONJUNCTION WITH THIS EXCHANGE BLUEPRINT ACCURATELY REPRESENT THE STATUS OF MY STATE'S INSURANCE EXCHANGE BEING DEVELOPED UNDER TITLE I OF THE PATIENT PROTECTION AND AFFORDABLE CARE ACT OF 2010 (Pub.
